

pevonia®
Botanica

To Whom It May Concern:

This is to confirm that we have worked with Jerry Matacale, Jr., for the last decade. He is a profound professional that masters his craft. He helped our company in the creation and development of our websites, corrections of images and realization of posters. He created many of our high-end brochures from concept to pre-press. He did correction, composite and pre-press of all our ads for trade and public magazines. Mr. Matacale certainly gets any or all the above jobs well done. He is highly recommended.
